

# STEPS FOR CREATING A COMBINED AXIS CHART

**STEP 1:** Drag and drop any dimension e.g.: **Region** to the **Columns** or **Rows** Shelf

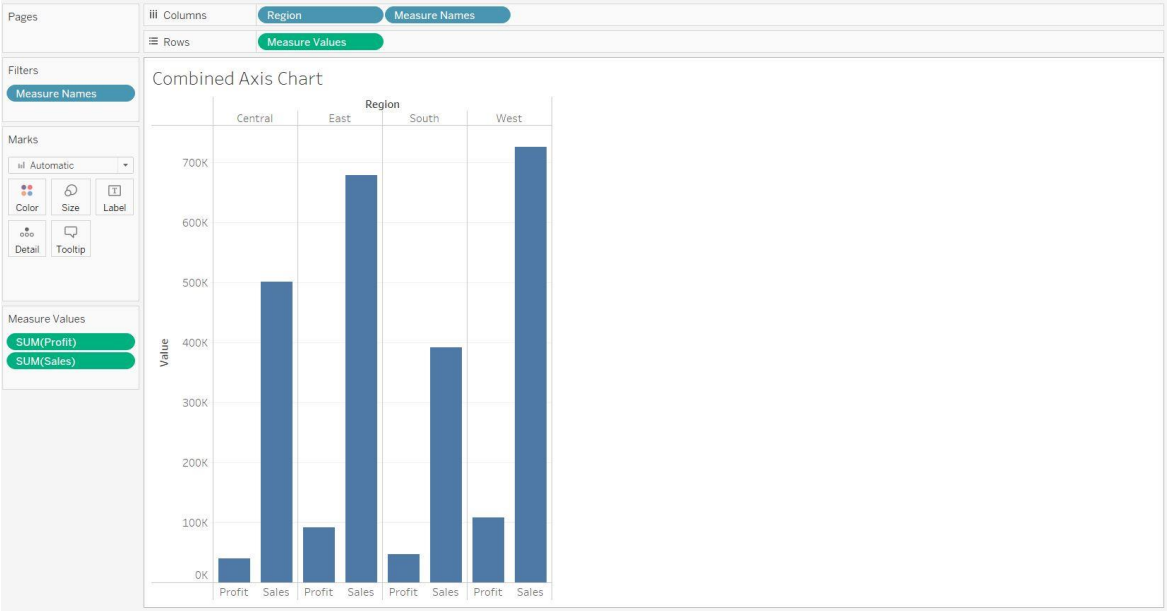

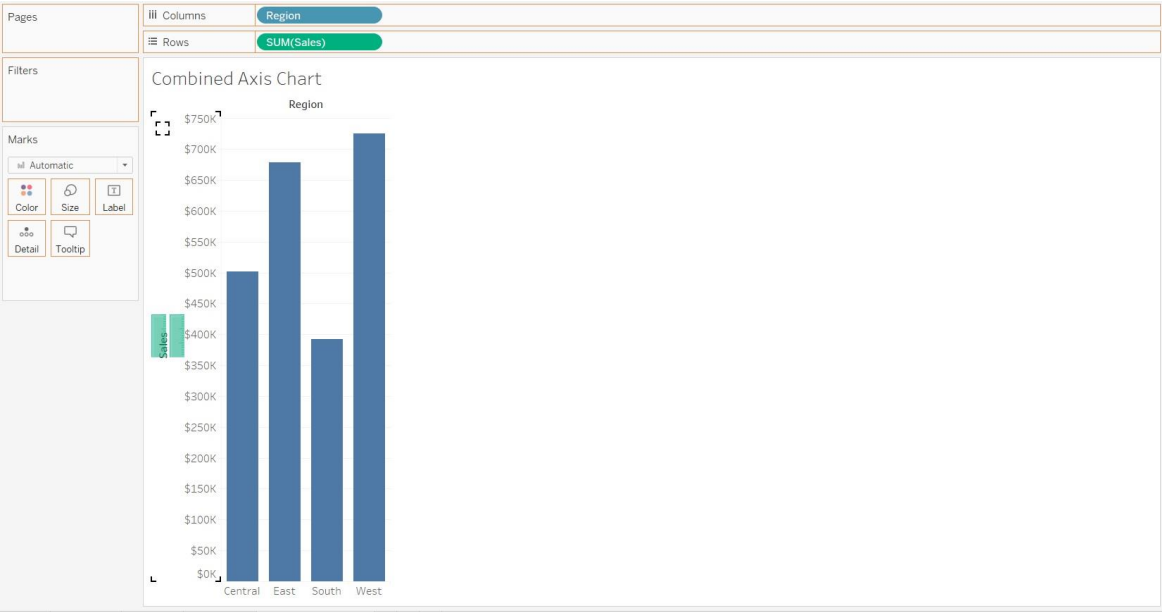

## STEP 2: Drag and drop the 1st measure e.g.: Sales to the Rows or Columns Shelf

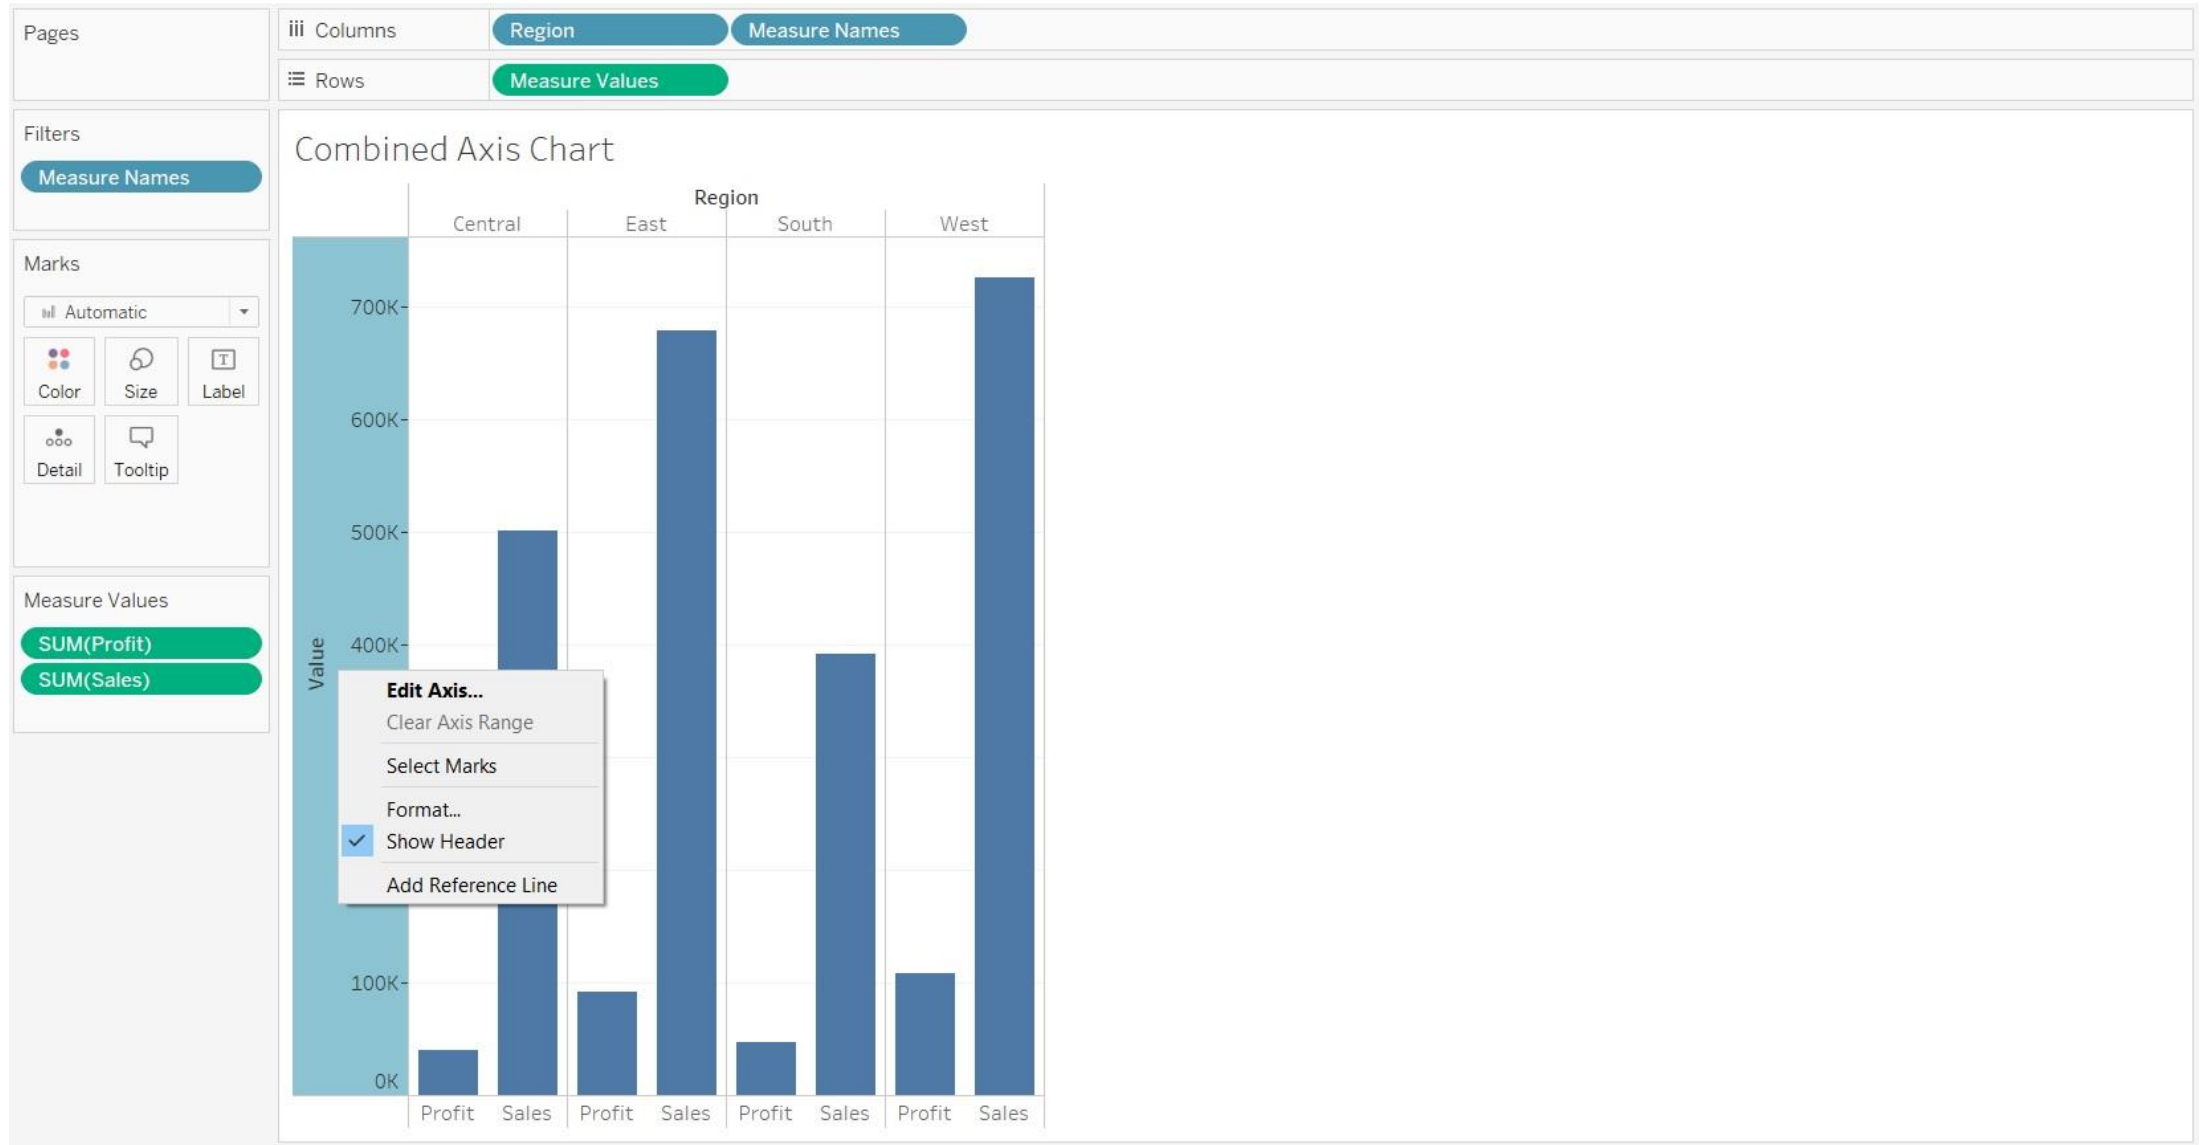

# STEP 3: Drag and drop the 2nd measure e.g.: **Profit** to the axis of 1st measure

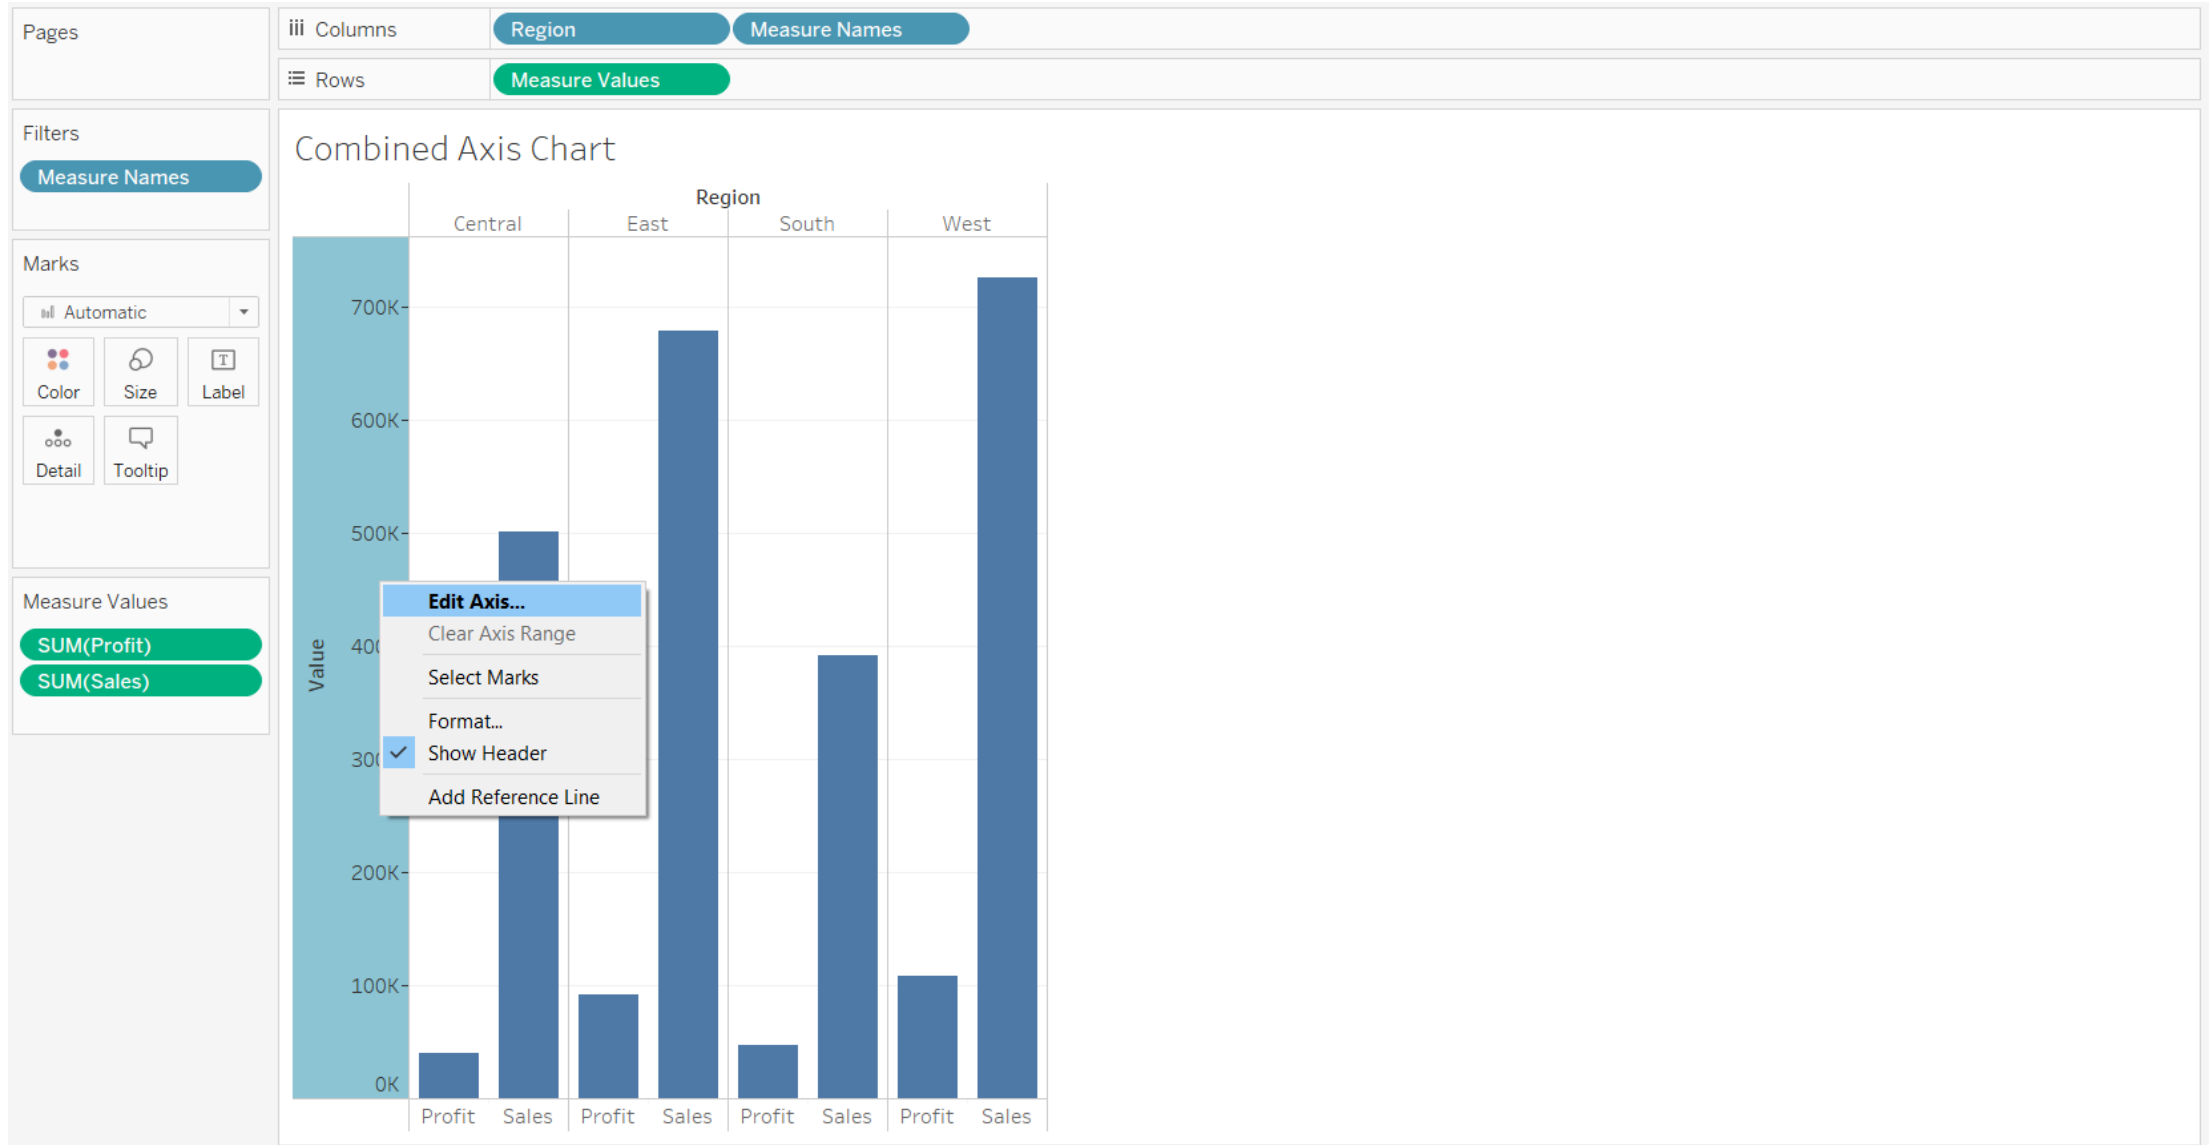

Ensure that the axis is now being shared by both measures i.e., Sales and Profit

## STEP 4: Right-Click the shared axis

## STEP 5: Select the "Edit Axis..."

## STEP 6: A window "Edit Axis [Measure Values]" will open

Edit Axis [Measure Values]

General

Tick Marks

Range

☒ Automatic

☐ Uniform axis range for all rows or columns

☐ Independent axis ranges for each row or column

☐ Fixed

☒ Include zero
