# HOW TO MOVE THE HEADERS/LABELS TO THE TOP OF A CHART

STEP 1: Assume that we have a Bar Chart of **Sub-Category** Vs **Sales**
**Rows shelf:** Sales
Columns shelf: Sub-Category
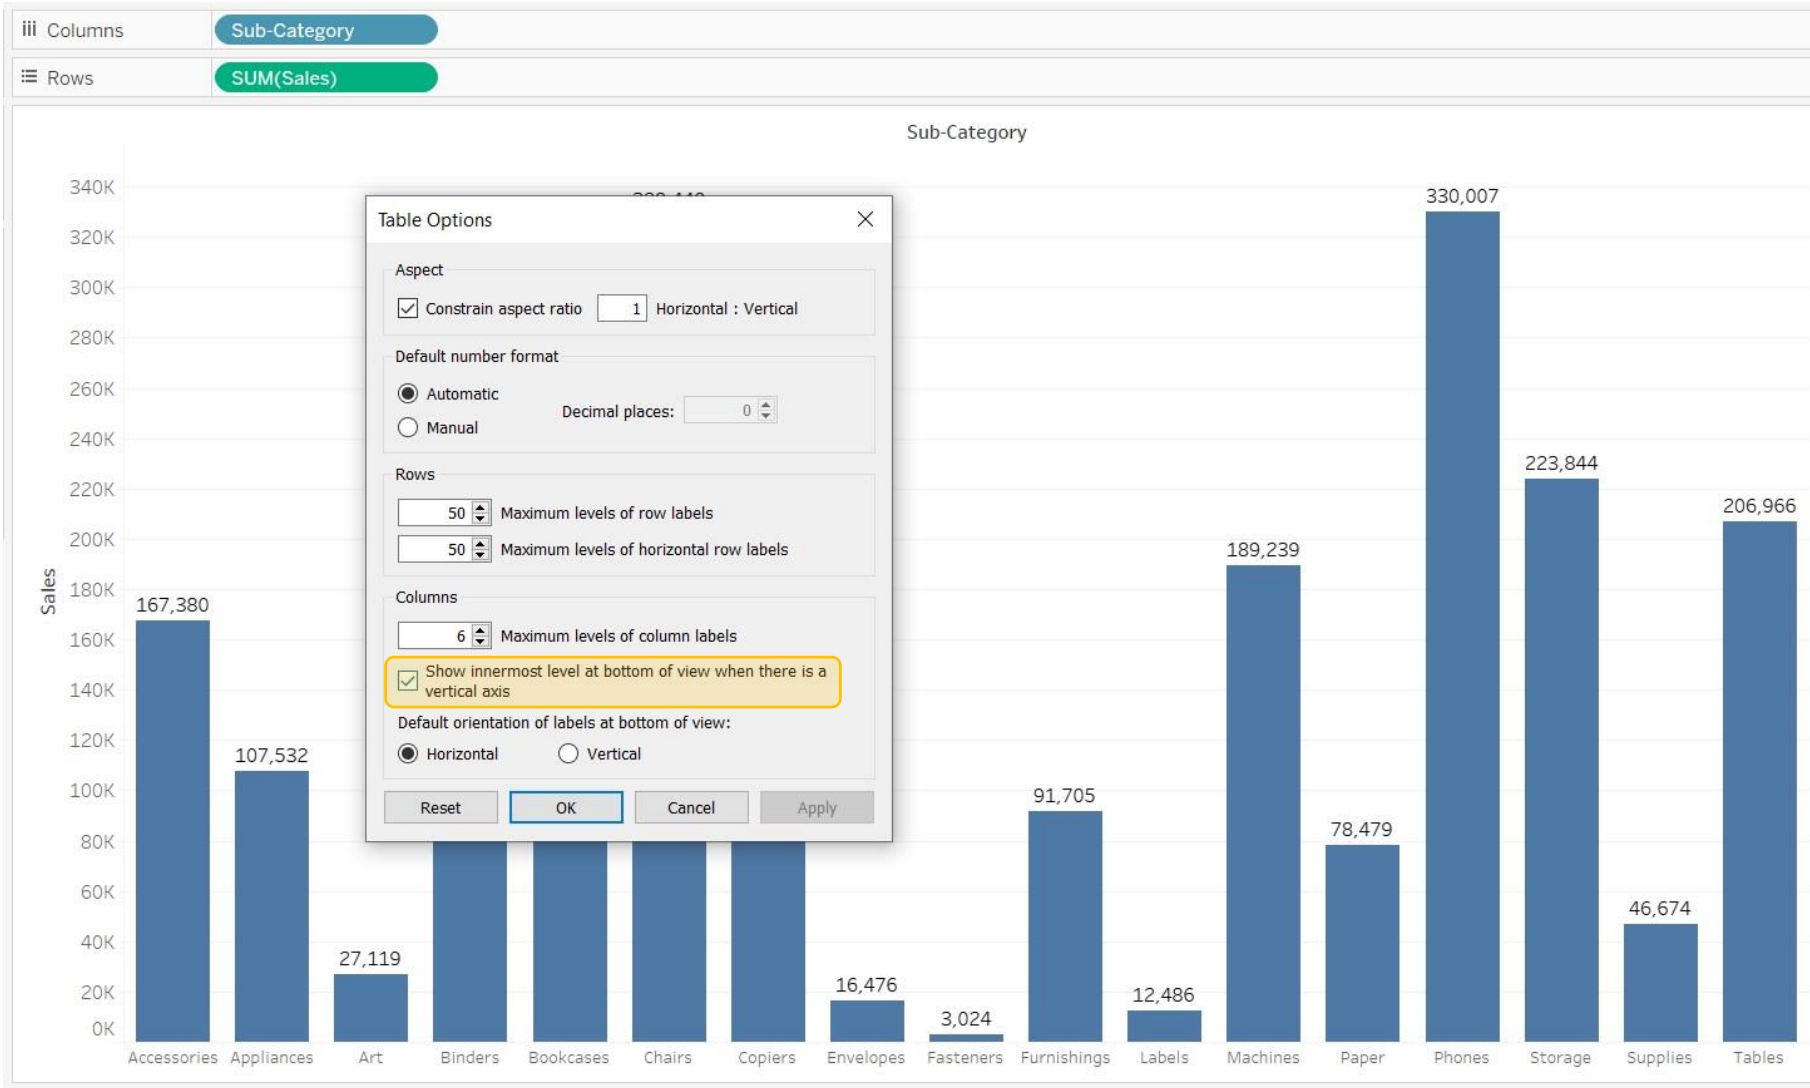

HOW TO MOVE THE HEADERS/LABELS TO THE TOP OF A CHART

STEP 2: Go to **Analysis** > **Table Layout** > **Advanced**

HOW TO MOVE THE HEADERS/LABELS TO THE TOP OF A CHART

STEP 3: By default, the **Show innermost level at bottom of view when there is a vertical axis** option will be selected

HOW TO MOVE THE HEADERS/LABELS TO THE TOP OF A CHART

STEP 4: Un-select the **Show innermost level at bottom of view when there is a vertical axis** option

HOW TO MOVE THE HEADERS/LABELS TO THE TOP OF A CHART

STEP 5: The Headers are now visible at the Top of the Bar Chart

NOTE: This is possible only if the field is a **Discrete** field

HOW TO MOVE THE HEADERS/LABELS TO THE TOP OF A CHART

STEP 6: We can move the Headers to the Top even for Discrete
Dates e.g: **MONTH(Order Date)** - Blue Pill
