# DIFFERENCES IN AGGREGATION OPTIONS FOR A NUMERIC AND NON-NUMERIC DIMENSION
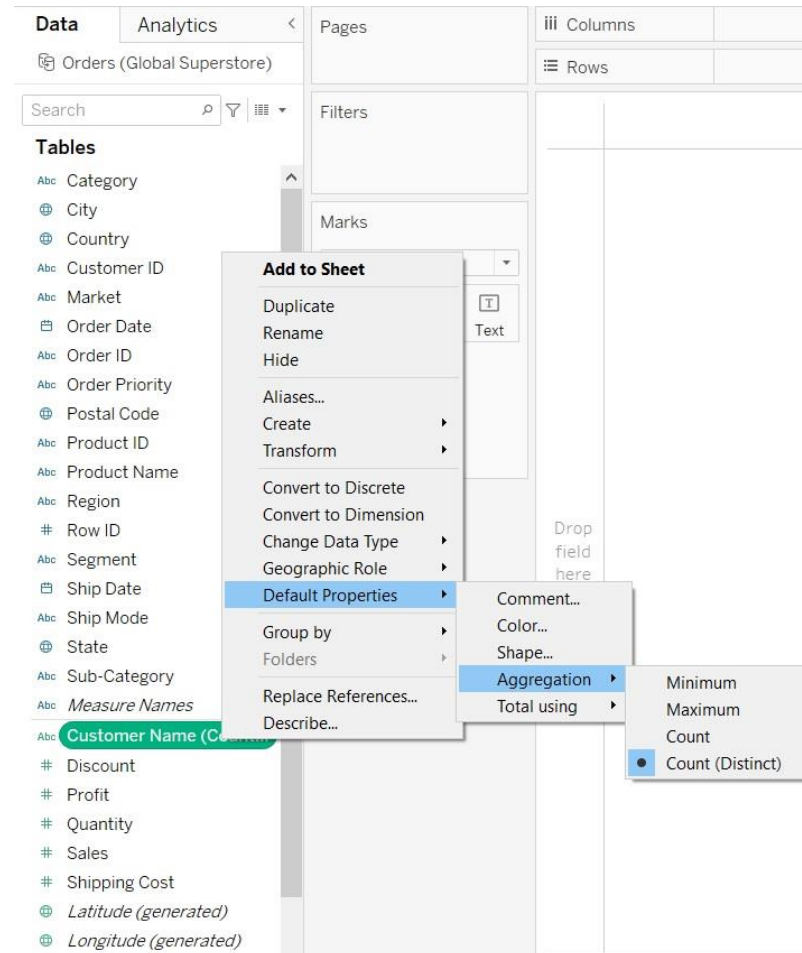

Step 1: Select any non-numeric dimension e.g: **Customer Name**
Right-click **Customer Name**, Select **Convert to Measure**

# DIFFERENCES IN AGGREGATION OPTIONS FOR A NUMERIC AND NON-NUMERIC BASED DIMENSION

Step 2: Right-click **Customer Name**, **Default Properties > Aggregation**
There are only 4 aggregation options i.e., **Minimum, Maximum, Count, or Count (Distinct)**

DIFFERENCES IN AGGREGATION OPTIONS FOR A NUMERIC AND NON-NUMERIC BASED DIMENSION

Step 3: Select any numeric based dimension e.g: **Row ID**
Right-click **Row ID**, Select **Convert to Measure**

DIFFERENCES IN AGGREGATION OPTIONS FOR A NUMERIC AND NON-NUMERIC BASED DIMENSION

Step 4: Right-click **Row ID, Default Properties > Aggregation**
A Numeric based dimension will have as many aggregation options as a standard measure
